# Coach's Comments

“As a new club we are expecting to have some tough moments this season. Every night is a huge challenge for us, but one that we are all excited to take on. That makes games like Cardiff all that bit more special. Though it was just a single game, it unquestionably had a little more meaning than usual. It was our first home win as an Elite League member, and it was a win against the reigning 'double' champs, a very high quality team that has done very well in Champions League European competition. It was definitely a big moment for this club.

Having said that, it is important to put it in proper perspective as one game, and one that is now behind us. The one thing about this league which is starkly different from the EPL is that there is no night for us when we enter a game as the favourite. There are no games where people think we will run out the winner hands down, and there will be no defeats where people scratch their heads and wonder how we managed to fall short against a particular opponent. In so many ways that is a very good thing. It improves on ice competition from a fan perspective, and hopefully on most nights it will help keep us focused so that when we arrive at the rink we are fully ready to play. With some of the talent we are seeing on the other benches, a lack of preparation or failure to reach the proper state of readiness at puck drop will be disastrous. We look like we have guys who will come in, work hard, and leave it all out there on the majority of the nights and that is all we can ask. We hope you enjoy the weekend ahead against yet two more of the league's flagship teams, Nottingham and Sheffield.
